

Make a difference with one euro!

*With just one euro
you can help
secure the future
of these dog
brothers*

Pro Animals Romania found Mani and Manu, the dog brothers, abandoned on a backyard of a house when the dogs were just small puppies. Carmena and Patricia took the dogs under their care and now these boys are happy and healthy at the women's shelter.

Sadly the future of these young dogs and their over 500 friends is at stake as they must soon leave the current shelter. The city of Tg-Jiu has donated a hall complex for the new shelter but the facilities must be fully renovated to meet the demands of proper animal care. However, this is our only chance to save the shelter dogs to a safer environment.

You can help the dog brothers and their friends by donating one euro for the new shelter. Please ask your friends to help too – the more donators we have, the better chances we have in getting the dog brothers and their furry friends a proper new home!

Participate in Pro Animals Finland's campaign "Make a difference with one Euro" and challenge your friends to donate, too!

Pro Animals Romania and Pro Animals Finland (PAFi) are legally registered non-profitable charitable organizations.
